WASHINGTON STATE SECTION / INSTITUTE OF TRANSPORTATION ENGINEERS

ITE WASHINGTON

Letter from the President

Jim Ellison, WA Section President

This year marks the big "4-0" for me. Obviously, I'm not referring to my age. That milestone occurred a long time ago. Rather, I'm talking about becoming an ITE member 40 years ago. It was then, as a student at the UW, that I discovered the world of traffic engineering. In between classes, Professor Roy Sawhill suggested that I become a student member of an organization called the Institute of Traffic Engineers.

For members of the student chapter in those days, the annual Student Night at the local ITE section meeting was a highlight. At that time, the program consisted of UW Masters students who presented the results of their thesis or dissertation, and then steeled themselves for questions from the ITE professionals in attendance. We students all wanted to make a good impression. After all, we were just coming off of a steep Boeing recession two years earlier. Unemployment

Next Meeting

ITE WA Student Night

Come join us for Student Night on Tuesday, May 14 at Ivar's Salmon House on north Lake Union. This evening will provide a great opportunity for networking between students and professionals. We encourage you to attend and help us support students interested in transportation engineering.

This year we have a project from the City of Seattle. The students have been asked to prepare a conceptual design for the Green Lake Way North Bicycle Facility Project in the Green Lake neighborhood of Seattle. Each conceptual design should consider and address all modes of operation (motor vehicles, transit, bicyclists, and pedestrians). It should also evaluate the operation of the roadway corridor and should consider traffic volumes, collision data, right of way, existing in-road structures, road geometry, parking utilization, transit headways, pedestrian and bicycle volumes, and roadway classification.

The top three plans will be chosen based on a vote at the end of the evening. Students will be competing for cash prizes of $500, $300, and $200. A winning proposal will have creative solutions to improve pedestrian and bicyclist safety, and manage traffic flow. For a more detailed explanation of the project visit ITE WA's website. Additionally, this year's scholarships will be awarded at the end of the evening.

WHEN Tuesday, May 14, 2013
5:30 - 6:30 p.m. - Poster board session
6:30 - 7:30 p.m. - Dinner and student presentations
7:45 - 8:00 p.m. - Presentation of scholarships and awards

WHERE Ivar's Salmon House, 206-632-0767
401 NE Northlake Way, Seattle, WA 98105 (view map)

COST $40 for ITE members. Free for all students.

MENU Ivar's world famous clam chowder
Entrée choices include:
- ◊ Alder grilled sockeye salmon
- ◊ Chicken parmesan
- ◊ Vegetable lasagna
- ◊ Four cheese ravioli

Dessert: Assorted cookies and ganache brownies

RSVP Please register with Carla Nasr at itewaregister@gmail.com as early as possible but no later than 5:00 p.m. on Friday, May 10. Those who register and do attend will still be billed for their meal.

Letter from the President *(Continued from page 1)*

had peaked at 13%, and it was to the point where a couple of realtors had arranged for a message to be posted on a billboard near SeaTac: *"Will the last person leaving Seattle — Turn out the lights.*" Getting a full-time job was a hit or miss proposition.

That Student Night exactly 40 years ago is still pretty clear in my mind. As a mere undergrad student, my duty that evening was to introduce the student presenters. I remember that one of the Masters candidates was a young guy named Bill Haro. Awards were given for the best presentations, similar to what we do now.

It was customary in those days to have an ITE member volunteer to sponsor a student for the evening. That entailed paying for the student's meal and sitting together at dinner. For the ITE member, it was a way to support the student chapter, personally host a student and making the student feel welcomed, and perhaps lend some mentoring for an evening. For the student, it was a great opportunity to meet an experienced professional in the traffic field.

My host was a senior engineer who worked in the Bellevue office of a large national engineering firm. Conversation was light as we got to know each other a little. I was somewhat nervous but felt like I was holding my own. The problem was deciding when to ask him The Question. Time was starting to slip away and the presentations were about to begin. I knew the time was now or never. I finally got up my nerve. In as casual of a tone that I could muster, I asked, "So, do you have any job openings?" Without much hesitation, he replied, "Why don't you get a job with a public agency, get a couple years of experience, and then give me a call."

As temporarily deflating as that might have felt, I did end up taking my first traffic engineering job at a local city. Of course, I really didn't have a choice. Consultants then rarely hired students straight out of school. Eventually, after five years of working as an assistant city traffic engineer, I did go to work for a consulting firm which specialized in traffic engineering and transportation planning.

Many of you who also experienced ITE Student Night while in school probably remember your own evening as well as I do mine. For young people striving to enter the profession, doing their best to make a favorable impression in that setting can be awkward, challenging, rewarding, but always memorable. When students survey the professionals in the room, many see a snapshot of what they hope to become one day. This experience, on this one night, can leave such a lasting impression.

A couple of years after my Student Night experience, one of my best friends whom I had met at the UW was on the ITE Student Night program to present his own thesis topic. In the age before personal computers and LCD projectors, the best presentations used 35 mm photo slides and a Kodak slide projector. As my friend began his presentation, the bulb in the projector burned out. As stress quickly set in, and as my friend was frantically trying to think about how to salvage his presentation, Vic Bishop calmly went out to his car and retrieved a spare bulb. In my friend's mind, Vic provided invaluable support and literally saved the evening for him. For him, to this day, it is an indelible memory captured in time, and he still feels indebted to Vic and appreciative for his help that night.

Forty years later, the tradition of hosting students at the ITE-WA Student Night remains strong. Our Student Activities Committee, anchored by Richard Hutchinson and Aaron Knight from KPG, has arranged and coordinated this year's student project. The project is a conceptual design to address and consider all modes of operation for the Green Lake Way North Bicycle Facility Project in Seattle. Scholarship recipients will also be announced. We hope you will join us!

ite Washington State Section

Newcastle, WA
June 10, 2013

2013 ITE-WA Annual Meeting & Conference Registration Form

The Golf Club at Newcastle - 15500 Six Penny Lane, Newcastle, WA 98059, (425) 793-5566

Please note: The ITE-WA Annual Golf Tournament will be held on Tuesday, June 11 at the Canterwood Golf Club in Gig Harbor. See page 8 for more information or contact Mark Poch at mpoch@bellevuewa.gov.

The ITE Washington State Section is holding its Annual Meeting & Conference in the St. Andrews Ballroom and Prestwick Terrace meeting facilities of The Golf Club at Newcastle on Monday, June 10th. Newcastle's English Manor theme combined with panoramic views of the Seattle skyline, the Olympic Mountains, and Lake Washington should make for a wonderful setting for this year's event.

This year's program will feature three parallel tracks of technical sessions, covering Safety, Traffic Simulation and ITS Projects, and Featured Projects & Programs. The luncheon will include a presentation on ground-breaking research regarding driver behavior, member awards recognition, and election of officers for the upcoming year. With over 30 speakers, you will find a full day of regional showcase sessions covering some of the most interesting transportation initiatives in the Pacific Northwest, designed to provide you with tools to enhance your professional practice.

For location and directions to the meeting location, please visit the Golf Club website shown below. Included is information on a temporary construction detour due to possible lane closures on Coal Creek Parkway.

ITE Golf Classic #25

Canterwood Golf & Country Club – Gig Harbor, WA
Tuesday, June 11th, 2013, 1:00 p.m. Shotgun Start
Terry Gibson and Mark Poch – Tournament Chairs

Canterwood Golf & Country Club will be the site of our 25th ITE Golf Classic. The exceptional beauty and excellence of this private track will make for a fun and exciting challenge. Designed by Robert Muir Graves and regarded as one of the most challenging tracks in Washington, the playability of Canterwood has recently been improved by reworking the bunkers and removing or limbing hundreds of trees. This upscale course features exceptional playing conditions, especially the greens, which are some of the fastest in the state. With no two holes the same, Canterwood is an exceptional northwest golf course and will be a great venue for the 25th ITE Classic.

Be sure to be a part of our famous day of golf, food, and fun! Our tournament will have a shotgun start at 1:00 pm and will feature the popular "scramble" format. **Please check in no later than 12:15pm.** There will be teams of four. Two players from each team must be ITE members. Please contact Mark Poch for exceptions (425-452-6137, mpoch@bellevuewa.gov). Single golfers or couples are definitely welcome as we usually have a couple teams with less than four players.

The cost for the event is **$90 per person or $360 for a team of four** and will include use of the range, power cart, competition prizes, and BBQ after the round. Please fill out and mail in your registration form on page 9 and contact Mark Poch (425-452-6137, mpoch@bellevuewa.gov) to reserve your place in the tournament. **All checks need to be received by Thursday, May 9th unless you make arrangements with Mark.** For teams, the t**eam captains should fill out the registration form.**

Please leave yourself plenty of time to get to the course. We have unlimited use of the practice facility prior to the shotgun start, so come early and warm up. The course address is 12606 54th Ave. NW, Gig Harbor, WA 98332, 253.666-8502. From Northbound SR-16, take the Burnham Dr. NW exit, at the roundabout turn onto Canterwood Dr. NW, continue straight onto 54th Ave. NW, turn right onto Canterwood Dr. NW, take the 1st left onto 53rd Ave. NW, continue onto Floxglove Dr. NW, and then the course will be on your right. See map.

Safety Corner

News from the Section Safety Committee

By Gary Norris, Safety Committee Chair, DN Traffic Consultants

The Safety Committee has outlined the speakers and sessions for the ITE WA Annual Meeting on June 10. The focus of our Track will be fostering a safety culture among ITE members. We will provide updates on the Target Zero program, review the HSM Training Course that several members will have completed, have a dialogue between the two major project funding agencies, and hear from local agencies that have been awarded safety projects. We look forward to seeing you all there. Please see page 5 for more information.

The Safety Committee alternates each month between face to face meetings and those done by either conference call or webinar. The next meeting will be held on Tuesday, May 7 via GoToMeeting. If you are interested in attending please contact Gary Norris. Also, if you want more information about the committee or are interested in joining, please contact one of the committee members:

2013-2014 Officer Elections: Candidates for Secretary

The ITE WA Officer Nominating Committee, led by Kevin Chang, Past President, announces the candidates for the 2013-2014 election of Section Secretary. We are pleased to have two active and enthusiastic candidates for the position: Paul Cho, PE, PTOE and Jamal Mahmoud, P.E. Please review their statements below. ITE WA members will vote electronically in late May or early June and the results will be announced at the Annual Meeting on June 10.

Paul Cho, P.E., PTOE
Traffic Operations Engineer, City of Redmond, WA

I am honored to run for the position of Secretary for the Washington State Chapter of Western ITE. It has been my pleasure to participate and share the knowledge and experience of our members acting as your Scribe since 2004. It is impossible to be experts at every aspect of Transportation. Yet, by building relationships, we are able to access the expertise needed to meet the ever increasing challenges. My commitment to this effort of collaboration makes me an excellent candidate to enhance the relationships between public, private, regional and local transportation professionals.

If elected as your secretary, I would continue the legacy of sound leadership that has been developed over the years as well as infuse my own vision and ideas. Specifically, I intend to focus on the following for our ITE Section:

1. Continue to provide relevant and affordable presentations and training that focus on member's needs and evolving trends.
2. Strengthen the relationship between Public, Private, Regional and Local professionals.
3. Increase interactions with our Student Chapter to help infuse new ideas and energies into our membership.
4. Improve our relationship with other professional associations such as ITS Washington and Northwest IMSA.

Thank you for your consideration.

Jamal Mahmoud, P.E.
Senior Discretionary Engineer, King County, WA

I am honored to have the opportunity to run for Secretary of the Washington State ITE Chapter for 2013-2014. I graduated from University of Wales, UK with a Bachelor degree in Civil Engineering and later obtained my Master degree in Transportation Engineering from Portland State University. I have over 20 years experience working as professional engineer with local governments and private sectors. In my last 10 years involvement with the ITE, I had the opportunity to serve as the Washington State Student Committee Co-Chair, and the ITE Annual Meeting Coordinator.

I intend to bring to Washington ITE Section, as your secretary, the following:

1. Increase member's exposure to and knowledge of local, national, and international issues.
2. Increase member's involvement in transportation-related public policy discussions and action.
3. Increase employer and employee awareness of the value of participation in ITE programs.
4. Attract students to the transportation profession as an opportunity to make a positive contribution to our section.
5. Increase ITE's capacity to provide training and access to information.
6. Increase meaningful and appropriate communications with related member groups.
7. ITE members will enjoy a collegial and collaborative environment that advances technical knowledge, provides opportunities for workforce development and creates forums for global information exchange and networking.

I kindly ask for your vote, my long time involvement with the ite makes me an excellent candidate for this position. Thank you.
